

BRITISH SPOTTED PONY SOCIETY

PASSPORT APPLICATION FORM

INSTRUCTIONS:

Identification of the animal.

If you are going to complete the markings chart yourself this must be done before the vet implants the microchip. Make sure that you have found all the whorls and that you have marked them on the chart with a clear black x. White markings should be marked and hatched in red. If your vet is going to do this for you they should use the same method for recording the markings.

If less than three whorls are found then the vet should draw the chestnuts.

The vet should then implant the microchip, mark the site on the chart with an 'm' and sign/stamp/date the form to confirm that they have implanted the microchip into the animal described in the charts. A bar code of the microchip should be stuck in the place indicated

Please complete the rest of the form carefully and send to –

Rosie Perry-Evans, BSpPS Registrar

43 St. Peters Mount, Exeter, Devon, EX4 2JD

Please ensure that you have sent:

- The completed form
- A covering certificate if you do not own the sire
- If either the sire or dam is registered with another society please enclose a photocopy of their registration.
- Two good photographs of each side (4 in total)
- The fee £20.00 Members, £40 Non-Members. Late/Duplicate/replacement passports £40 Members, £60 Non Members.
